BACHELOR OF ARTS IN INTERNATIONAL ECONOMICS

Faculty of International Economics

Office: D628, Email: khoakinhtequocte@dav.edu.vn

❖ OBJECTIVES

The training program provides learners with basic knowledge of politics, culture, society, and law, alongside in-depth theoretical insights into international trade, international investment, international finance, and international economic integration. Learners will be capable of applying the acquired knowledge to explain and analyze international economic issues in practice. Besides, the program is designed to develop essential skills for learners to work effectively in a dynamic, innovative integration environment, such as presentation skills, the ability to work independently and in teams, critical thinking, proficiency in foreign languages, and the efficient application of—information technology. Furthermore, learners are also trained to develop personal growth and professional ethics, foster a cooperative mindset and work responsibility, uphold national and social interests, and nurture a commitment to dedication and service.
